Miguel Murillo Bernal   El Alto, La Paz Bolivia

Date july 25, 2022

To whom it may concern:

I want to express my interest in applying for the Customer-Facing Engineer position in your company. Your list of qualifications has motivated me to apply for the position since it coincides with my credentials and skills.

Throughout my career, I have acquired the skills and knowledge required to perform the Customer-Facing Engineer tasks and will bring immediate value to Viasat goals.
Previously, in my Software Engineer role, I exercised a fast and optimal approach to problem solving and design of solutions.

I always try to be informed of the latest technologies and advances in my field of work. I am able to acquire knowledge quickly and effectively, in addition to always finding ways to apply everything I know to perform my duties efficiently, quickly and effectively.
To demonstrate the scope of my career history and professional competencies, please take a moment to review my attached resume and the web version https://m1gueldev.github.io/curriculum_vitae/. I appreciate your evaluation of my credentials and subsequent response.
